

Alien Aura Devices Reiki

by Stewart Farquharson

The Coming of the Star People

According to some metaphysicians and psychics our Earth has been visited by people from other planets.

Some were trying to help us. They encouraged early humans to move from a hunting and gathering lifestyle to farming and the building of cities.

Others rebelled from their mission and lorded it over early humans, pretending to be gods. They had temples built for their own glory, and encouraged war and sacrifices. They hid their true shapes. They took slaves. Their ships prowled the atmosphere and terrified us. We have written our mythology

around their quarrels.

For the aliens formed great alliances and battled among the stars. It may be that is why one of the planets is now a ring of rubble known as the Asteroid Belt between Mars and Jupiter.

At last the aliens made a truce before they destroyed the Earth. They both withdrew into hidden dimensions. They were permitted to influence but not physically interfere with humans.

For centuries this treaty held. Then other aliens began visiting Earth. Swooping down in their "flying saucers" they kidnapped humans and examined our abilities. These aliens could not shape their appearance to look human. They had large bald heads and big almond-shaped dark eyes. And grey skin. They are called the Greys, in popular lore.

Alarmed by man's invention of atomic weapons and scientific break-throughs in rocketry, the Greys decided to slow us down.

They invented cunning devices that affected our brains ability to focus clearly, to maintain peaceful and creative emotional moods, to harness psychic forces. Some of these machines looked like tiny cylinders and were commonly detected behind the left ears of those kidnapped humans who returned.

However some have no physical substance. They are formed from astral structure and lodge in our bodies' natural energy layers.

It is these devices that this reiki system is designed to detect and remove.

What does an Implant Look Like?

To your inner eye these things may resemble simple shapes such as pyramids, cubes, cylinders and stars and spheres. Some have barbed limbs. They do not move. Some twinkle and glow dimly. Some are concealed under a shimmering layer of light that makes them transparent and ghost-like.

If you ask your reiki scanning to detect such things, you may feel them pulsing. Or you can draw a figure of a human on paper and hang a crystal on a string above. Hold it lightly in your fingers and relax and ask your pendulum to show you a motion for a "yes" answer and a "no" answer and a "don't know". Then ask if there is an implant in the human you are working for.

The implants affect our reasoning, our emotions and our psychic abilities. They don't usually cause physical harm because the aliens need us to be healthy and to breed. However our own resistance to these things may affect our health badly.

When you have detected an implant there are many ways you can remove or inactivate them.

1. The Pendulum Method

You declare your intention to remove the implants with the pendulum and your control of universal energy. In your mind see a very cleansing energy enter the pendulum crystal. Now let it begin to revolve in circles and say that when the implants are all dissolved, it will slow to a halt. This method is good for long distance removals.

2. The Dagger Method

A phurba is a three-sided Tibetan spirit dagger. It can capture and magnetize bad energy. You can imagine yourself holding one before the person to be cleansed. Intend that all implants lift away from the person and flow into the dagger. These daggers are specially good at this.

When finished, plunge the dagger into the earth to release the dissolved and harmless energy devices. You can buy phurbas made of rock crystal and these are very strong indeed.

3. The Natural Arch Method

Have the person who needs cleansing walk under a natural arch of stone or vegetation. As he does, intend that there is a "film" like a soap bubble over the archway. As he walks, this film removes all implants. This is a simple method but it works well if you have the permission of the local Nature Spirits.

4. Ringing Bowl Method

Listen to the sound of Tibetan singing bowls and intend that their holy vibrations shatter all your implants and render them harmless. Allow the sound to fill your being. Shake yourself vigorously and imagine implants breaking apart, flying into harmless shards of energy.

5. Light Ship Chamber Method

This uses your imagination. You request the kind aliens to allow you to travel mentally to one of their space-ships and to heal in their Light Chamber. If you feel a "yes", then just breathe deep and relax, and close your eyes and imagine yourself flying up to a beautiful glowing saucer whose door opens to receive you, and then settling into a comfortable glassy tube which closes over you and fills with sparkling misty light. All your alien implants will be removed. Then just open your eyes to return. Thank them.

Some psychic people maintain relations with these gentle aliens and assist them. They are working on Earth's Ascension, the great shift in spiritual evolution that is coming soon. People visit the Light Ships in their sleep. These aliens look like us, or like figures of white light.

6. Herbal Smudge Method

Using the smoke of sage or some other cleansing herb, breathe strongly and imagine light and compassion from the Plant Spirits filling your body. Imagine all foreign things such as implants and all harmful things being taken away, dissolved into harmless vibrations and gone. Holding a tourmaline crystal is also useful.

Using this reiki

To add this reiki to your own healing systems just intend its effects to remove alien aura devices as you work.

Attunements

You may attune students to this reiki by your favorite method. There are no symbols. To accept an attunement just say aloud "I accept (name of system) sent to me by (name of teacher)."

I hope you find this energy useful and enjoyable. It is not intended to replace medical care, but as a means of wholeness.

Love and light,
Stewart

Disclaimer: This energy system is intended for relaxation and wellness and spiritual growth, but people with medical problems should of course continue to see their doctors and get medical advice from a professional
