Foreword - The LightWorker™ System

The LightWorker™ System originally started as an affordable alternative to the Lightarian™ Reiki Training Program, created by Jeannine Marie & Christopher Jelm, which has inspired us very much. The Lightarian™ Reiki Training Program is a very powerful quality system, which all that have received those attunements agree on. When you set exuberant prices and place lots of restrictions on a system there will always be many that will not be able to benefit from it. Many systems prove to be similar in nature and vary greatly in price.

With the LightWorker™ System, we strive to help mankind move towards enlightenment by keeping overpricing and copyright overprotection to a minimum. This system has been created in a way that makes it easy for other Lightworkers to join with us and help continually build not only the system but also mankind.

The LightWorker™ System has two main lines:

- The LightWorker™ Attunements containing LightWorker™ Spectrum Reiki, LightWorker™ Archangelic Links, LightWorker™ Ascended Master Links, LightWorker™ Buddhist Links, LightWorker™ Netjeru Links and LightWorker™ Clearing Series.
- The LightWorker™ Series containing more than 500 of different attunements, empowerments and initiations from a series of multidimensional healing teachers from all over the World.

That makes the LightWorker™ System the most complete healing system on Earth,

Pricing – free or low cost

Many of the attunements, systems and series are free of cost – others you can charge a reasonable price. You can sell this system, exchange it or pass it along for free - that is totally up to you. But you are not allowed to charge anything for the free attunements or systems, and not more than 25\$ or 25€ (or equivalent) for any of the other attunements. If the student wants a certificate, you can charge up to 10\$ or 10€ for that. That is more or less the only restrictions. I think that you will be able to live with that. So – if you are in a Yahoo group, you will be able to get almost all systems free of charge, and then you can make exchange for other systems – paid or not paid. Some people do not want to exchange a paid system for a free system – so some of our systems are in principle paid systems, even though you might get them free.

Getting started

LightWorker™ System is concerned with the full gamut of energy but focuses on moving mankind into the higher frequency levels. The individual would start by moving into the bands of energy that occupy the higher frequency ranges. It is therefore necessary that you already have some training with Reiki energies. We do not teach hand placement or positions for healing nor do we stress the use of the more tradition methods used in energy exchange.

Because of our dedication to explore and tap into the unlimited supply of energy of Source, we do not stress the use of symbols, breath manipulation, and body/hand positions. We developed this system to make accessing the higher frequencies of Source our priority. The LightWorker™ System makes energy easier to obtain and readily available to all that want to move along a higher path.

LightWorker™ Clearing 7 - Karma Removal

This energy system was channeled in the year 2006 during meditation to connect to an energy for removing karma and vipaka, in order to heal the vibrations brought from one life to another and release the negative patterns hindering the path to enlightenment.

Karma Removal is part of the LightWorker™ System which aims at helping mankind move towards enlightenment by keeping overpricing and copyright overprotection to a minimum. The basic structure of the LightWorker™ System is to combine a set of coherent systems covering the whole range of energy systems available, allowing anybody to attune for free or little cost.

The Concept of Karma and Vipaka

There is also a lot of misunderstanding about what karma really is. Often the word is employed to make it mean both action and the results of action. But technically the word karma means action, and a separate expression, vipaka is used to indicate the results of action or reaction. Vipaka is about what we sow and what we reap, somewhere and sometime, in this life or another.

As Karma may be good or bad, so may Vipaka, - the result – could be good or bad

However, the purpose of the Law of Karma is not to punish but rather teach lessons to help people grow and rise to higher levels of love, joy and light. Yet if the actions are not linked with the results, the healing may be incomplete. When vipaka is completed, a sense of freedom prevails and relief happens. The blockage clears and insight becomes accessible. The person detaches from the intensity carried over.

Learning to deal with karma and vipaka is not easy for it involves deep thinking about its origin, purpose and solution. When the answers to these issues are found, the ability to neutralise its control over one's life is gained. Karma-vipaka removal and healing is about choice, no matter how difficult the lessons may be.

Karma and Vipaka in Japan

Life is based upon universal laws – the supreme law is in Sanskrit called „Dharma“. This law controls all other laws. Another law is the "Law of Karma" – in Japanese Ingaritsu - 因果律. This law is 100% filled with love, intelligent and just – even though we not always think so, when the verdict goes against us.

Karma – Goin:

Karma/Goin is the sum of your actions in this and former lifes. "Old karma" is the sum of good deeds and not so good deeds in formerlifes, which you bring into this life. "Good karma" is the sum of all your good deeds, while "bad karma" is the sum of all your actions which should have been better. "New karma" is the sum of good and bad actions during the present incarnation. During our lifes we keep up building good karma with our good actions and bad karma with our bad actions.

Vipaka – Goka:

Vipaka/Goka is the fruti or result of our former actions. You should not think of vipaka as a punishment, but as an opportunity to learn. During our lifes we will receive "good vipaka" as a series of great experiences, and "bad vipaka" as some unpleasant occurrences, which we have to learn from. The result (vikapa) can ofte happen quite soon after the action (karma) – but it can also happen later in lifeor in your next life.

Attunement process

Meditate for a few minutes, light a candle if you prefer, call in your guides, angels or archangels to join you for the attunement. Ask your Higher Self to help you receive the energy for your highest good and the highest good of All. Say in your mind "I am now ready to receive attunement into Karma Removal energy from (Teacher's name) with divine blessings. Thank you". Relax for 15-20 minutes and let the energy flow. When you feel it has stopped, drink some water and keep relaxing. This energy is very powerful and must not be taken lightly or quickly.

To attune another person

Call on your guides, angels or archangels, ask your Higher Self to help in sending the attunement to the person. The attunement can be sent either as a distant session or by Chi Ball, or any other method preferred. Wrap the attunement with light and give thanks.

Using the energy

Activate Karma Removal energy by calling its name three times. Ask your guides, angels or archangels to perform a healing session for **negative karma removal and vipaka healing**. Follow your intuition in placing hands over the body or aura. If old baggage that you were not aware of comes up, do not worry, acknowledge it and let it be released from the energy field into the light of the universe. You may feel drained afterwards, but that's part of the healing. Because the energy is powerful, reactions may vary from one person to another but strong vibrations may occur.

You may choose to be specific about an issue for which you would like to apply karma removal and vipaka healing such as your love life, career, etc. In some cases, the healing must take the form of a daily practice, in others, a periodical one. Your intuition would guide you on when to use it, but not more than once per day.
