

Fusion Reiki

Fusion Reiki was originally channeled by Rev. Jason Storm, who worked to give Reiki away for free in his "Reiki Revolution" movement. All of his websites now appear to be down, but you can still experience Fusion Reiki energies.

Introduction to Fusion Reiki

(Symbol photograph: Fusion as received by Dr. Storm, artwork by Siv Breines of Norway)

On Saturday 25 November, 2000, during a group attunement for the members of the Reiki Revolution and the e-groups discussion list of the same name, Dr. Jason Storm received the following symbol and instructions for its use. The symbol gave its name simply as "Fusion" and is a mixture of the energies of Usui Reiki, Karuna, Seichim, and Tao Tian An Mian Chi Gong. This symbol is self-attuning, and anyone of any level, background, belief, or state of being can become attuned to the energies of this very potent symbol.

After you have been attuned to Fusion, you will find your High Sense Perception greatly amplified and quite easy to develop. To use the energies of Fusion in Reiki treatments simply say the name of the symbol and/or draw it (or visualize it) on the client receiving the energies and allow it to flow. Most people find they connect easily and instantly with Fusion, its energy is greatly amplified over any of the other styles alone.

Fusion works VERY QUICKLY, typically requiring only about one third the amount of time of the other styles alone, and the attunement is likely to pass to and through you very quickly as well. This is normal. IT IS MOST EFFECTIVE when used in distant treatment and attunements. The physical connection of a direct, hands-on treatment slows the energy down a little bit, but you should experiment for yourself and find the techniques that work best for you with this very potent power source.

There is no stroke order in drawing this symbol, as to intuitively seek the drawing order is part of the attunement and accessing process. Let it show you the way. Fusion has a consciousness of its own and requires practically no effort of any kind to utilize in healing, meditation, manifesting (magick), blessing, and cleansing.

I encourage you to experiment and find new uses for Fusion, and share them with others. I have been told there is a vast storehouse of knowledge contained in this symbol and these energies. Many new techniques will surely emerge.

I fully empower and authorize you to use this symbol, these energies, and the name "Fusion Reiki" in every way you see fit,

Bright blessings to you and may your journey be filled with love, light, and peace always!

Namaste,
Rev. Jason Storm

Self-Attunement Instructions

Please note that this is my own method for attuning yourself and another person to Fusion Reiki. I have developed this method because there is no stronger attunement or healing that I have passed other than the ones that have come from my higher self. Allowing your higher self to attune is what allows a person to receive energies that feel strong and powerful. This method allows you a way to get out of the way of the energy and what it has to do. This is a method that is based on the principle of you standing aside and allowing the universal energy to take its course and not be dampened by the individual.

As you do your attunement I will ask you to stare at the symbol (that is on the title page). So once you are ready to begin make sure it is on the screen in front of you or printed out and in a place where you will be able to gaze upon it.

First please get into a relaxed state. Start by sitting in a comfortable position with feet flat on the floor. Next, take a deep breath in through your nose, hold for a count of four, take a deep breath out through your mouth (pushing all air out of your lungs), and hold for a count of four again. Repeat this a few times until you feel adequately relaxed.

Repeat this out loud: "My beloved higher self, please surround me with the violet flame"

Visualize your whole body surrounded by a violet flame. See it, feel it, hear it crackling all around you. See it burning up any negative energy that is around you or within you.

Repeat this out loud: "My beloved higher self, please attune me to Fusion Reiki"

Now, look at the symbol. Imagine that there is energy emanating from the symbol. Imagine this energy is coming off the symbol, flowing towards you and filling you. Visualize this energy entering through the top of your head and filling your whole

body until it over flows covering you in its energy. Imagine the energy is shimmering and bright and it makes you glow brightly.

As you do the above say "I AM attuned to Fusion Reiki" three times out loud.

Visualize that you are standing in front of you and now begin to draw the symbol your self that is in front of you. Draw the symbol three times each time feeling the energy stronger and stronger. Look at the symbol on your screen or printed out paper as your guide. There is no specific right way or wrong way to draw the symbol. It is meant to be drawn in an intuitive way, allowing your higher self to guide you. However you feel guided to draw the symbol, follow that guidance.

Take a little bit of time and just feel the energy. Feel the energy making you tingle. Take as long as you would like to feel this energy and now that at any time you can repeat three times "I AM Fusion Reiki" and be engulfed in this energy again.

The Fusion Symbol will always bring you good luck, healing, protection, and guidance.

Namaste.

Attuning Another to Fusion

I recommend that you use the same method that I use when I attune someone. First make sure you are grounded. Please consider also using protection even if it is just by asking your own I AM presence to surround you with the White Tube of Light. You can do so by saying out loud "I AM presence please draw down and surround me with the White Tube of Light." Then just visualize white light coming from the heart of your I AM presence which is above you and visualize this forming a tube of light that surrounds you including underneath your feet. Please note that if you begin using this as a protection method daily that it will stay in take for as long as you stay in an emotionally positive place but should it be broken by an emotional out burst you will need to re-surround yourself with it.

The Attunement Process

As you attune someone either stare at the symbol if this is easier or simply visualize it in your mind. Try to see the symbol in your minds eye. Know that what you visualize will work fine because of your intent.

Get into a relaxed state. Start by sitting in a comfortable position with feet flat on the floor. Next, take a deep breath in through your nose, hold for a count of four, take a deep breath out through your mouth (pushing all air out of your lungs), and hold for a count of four again. Repeat this a few times until you feel adequately relaxed.

Repeat this out loud: "My beloved higher self, please surround (say name of person you are attuning and feel free to also say their location such as city and state) with the violet flame."

Visualize their whole body surrounded by a violet flame. See it, feel it, hear it crackling all around them. See it burning up any negative energy that is around or within them.

Repeat this out loud: "My beloved higher self, please attune (say their name) to Fusion Reiki"

Visualize the symbol above their head. Now see it flowing down into them. Visualize the energy of the symbol filling them and them glowing brightly from it.

Let the person know that their attunement is complete.

Namaste.
