ANGELIC CELLULAR HEALING

We speak of Angels at a sub-atomic and cellular level***

By this we mean....within the smallest of worlds within us....we have Angels....governing the processes of these *worlds*....overseeing our well being at the micro....unseen....however very powerful....real and all encompassing***

These Cellular Angels are the Divine Light Energies empowering and guiding our Cells and Cellular Activities....They are an essential aspect to nurturing the life form within each cell....and indeed form the Cell's Blueprint for life at this level of being***

The cell is one of the most basic units of life. There are millions of different types of cells.

We talk of cells that function as part of a larger organism, such as the cells that make up your body. (micro/macro)...

The cell is the smallest unit of life in our bodies. In the body, there are brain cells, skin cells, liver cells, stomach cells, and the list goes on. All of these cells have unique functions and features. And all have some recognizable similarities.....and all have a governing Angelic Messenger that holds the Divine Blueprint of the cells creation within it's focus....within it's Heart*****

All cells have a 'skin', called the **plasma membrane**, protecting it from the outside environment. The cell membrane regulates the movement of water, nutrients and wastes into and out of the cell. Inside of the cell membrane are the working parts of the cell. At the centre of the cell is the cell **nucleus**. The cell nucleus contains the cell's DNA, the genetic code that coordinates protein synthesis. It is within this centre that the Angelic Presence is found***

In addition to the nucleus, there are many **organelles** inside of the cell - small structures that help carry out the day-to-day operations of the cell. Everything within the cell is a reflection on a miniature scale...of the energetic processes occurring within the framework of the larger structures of the human form....

All energised systems within the miracle of the body's workings....immune, circulation, digestion, automation, have as their basis the workings of our individual cells....coming together and working as one...For the Highest Good of All***

THE CELL***THE SELF***THE UNIVERSE***

Universe provides ALL for us....At this microscopic level, each cell is overlooked by and brought into being by an Angelic Presence/ Code....

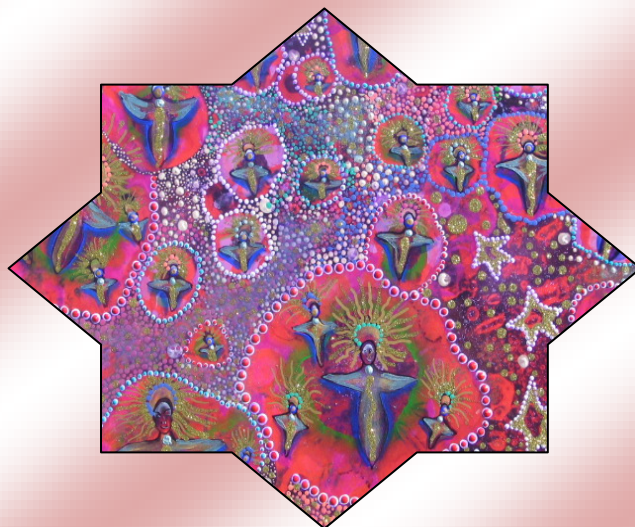

This Angelic Code holds the Divine encoding for the structure of the cell at all levels of being.....This code holds within it the life and transmutation of the cell...and the Perfection of the ***Creator***God***The Universe***...

This Divine Encoding gives access to the Creation Process itself....coming directly from the Source of the SOURCE***...

The Angelic Cellular Presence is the Energy behind the Cell....and supplies the energetic encoding for the perfection and high energy level of the cell and it's needs....Although the cells themselves are finite.... encoded with specific structural lifetimes....The Angelic Cellular Presence within the self is everpresent....and encompasses both the cells being transformed...and the new cells being brought into third dimensional form within the bodily processes....Indeed at this sub-atomic level...the co-creator process and the process of creation...is still going on...and mirroring the universe at large....Again...the Micro and the Macro levels of Being....

As we are, at a Soul Level...All One....So The Angelic Cellular Angelics are one....aspect of the same Source....Working in unison for the Highest Good of All...It is said that there are some three Billion or so cells within the framework of the average human body****

Within this Body is an Overlighting Angelic for the Cellular Angelics....This incredible and magnificent Angel resides in the Heart Chakra...ANARHATA...just above the physical heart***This Angelic is a Great Grand Master of Healing and overseeing cellular activity.....This Angelic can be communicated with by the self....and will give the self access to it by means of an energetic signature or a name....which in itself....through Cosmic Language....will communicate much with the Higherself/everydayself of the person concerned....

Through meditation, healing, and quiet contemplation....through accessing the various levels of the self through colour encoded universal rays and chakras of the energetic body.....and through the desire to communicate with these Heart Felt Cellular Energetic Energies.....We are able to access information in a number of ways.....

Through clair-cogniscance.....we know intuitively the information being given to us....we have instantaneous recognition of this knowledge at times....

Through clair-sentience.....we feel information in areas of our physicality or feel associated emotional states....also we can feel these states in unison...

Through Clair-audience....we may receive access to sound and words....paying attention to where these come from can also give us valuable information...

Through Clair-audience....we may receive pictures through our psychic vision...

Our third eyes...oftentimes thes pictures may be symbolic....and speak to us in Universal concepts....

About our Cells....

Structure and Function are inseparable....so too is the Divine encoding...the Angelic Cellular Frequency within.....

Cell membrane===communication

Endoplasmic Reticulum===action

Nucleus===DNA===information

Mitochondria===power

The first cell within is the porthole of the Divine....the Doorway between Spirit and Matter....This first cell holds within itself the Divine Blueprint of the whole***

WE ARE LEARNING MORE ABOUT OUR CELLS AND OUR SELVES EACH AND EVERY DAY***
